Captain Calvin's Cutters Corner

An old man was walking along a long and sandy beach. Far away in the distance he sees a figure of what he makes out to be a young boy.

As he got closer to the boy he starts to notice starfish being washed up on the sand. The closer and closer he got to the boy, the more starfish he saw.

He was now close enough to make out the boy was about 11 or 12 years old and he also noticed that the boy was wearing a Coomera Cutters Jersey.

The closer he got the more starfish there were, so many in fact it was hard walking on the sand without stepping on them.

When he reached the boy he noticed the boy was picking up the starfish one by one and throwing them back into the ocean.

The old man laughed at the boy and said, "There are tens of thousands of starfish on this beach!! – How can you possibly think that what you are doing is making a difference????

With that the boy picked up another starfish, grinned at the old man, threw the starfish into the ocean and said – "It made a difference to that one!"

Calvin's moral of the story: "You might not be able to change the whole world but you can certainly change some parts of it"

Calvin's Thought of the week- "If attitudes were contagious, would yours be worth catching?"

WE NEED YOUR HELP!

Club House Fit Out

PROJECT STORY

Coomera Cutters has recently had their new club house built however the fit out is yet to be completed and we need your help to finish off our new rooms. Cost spent on building the clubhouse are at \$300,000 of which the majority of funds have come from Government Grants & Council funding. Whilst the club has been successful in receiving funding from a number of government and community organisations an additional \$20,000 needs to be raised to finish the new rooms.

HOW THE FUNDS WILL BE USED

To renovate the inside of the newly established club house and ensure it its operating efficiently.

WHAT MAKES THIS PROJECT SPECIAL

The club is a pivotal part in the community and it is essential we offer our members and guests the best training facilities and ground in order to grow successfully. Sporting clubs are the foundation of the community promoting social inclusion and physical activity. A study by the The Centre for Sport and Social Impact (CSSI) at La Trobe University has found that for every \$1 spent on local football clubs, at least \$4.40 is returned in social value, improving employment outcomes, mental well being and personal development highlighting the need to ensure growth for the Coomera Cutters.

THIS PROJECT WILL BE SUCCESSFUL WHEN...

The club house will be fully completed with new change rooms, offices, canteen, toilets, training room and furniture. The Club will showcase great sporting facilities and have the capacity to increase memberships.

HOW CAN YOU HELP?

A pledge to this page will ensure the Coomera Cutters are on the way to becoming the best local sporting club in town.
